Moving TRiO Programs From Good to Great: The CAS Approach to Quality Assurance in Educational Programs and Services <i>(NOTE: For project members, second registrant is FREE)</i>		\$75.00	\$150.00	\$ _____
CAS, the Council for the Advancement of Standards in Higher Education, has recently been updated for TRIO programs. CAS has been the principal influence for promoting standards in student affairs and student service programs. CAS offers standards and guidelines that lead to superior programs and services. The standards provide an opportunity for staff to evaluate their programs and are useful to improve program procedures and increase program credibility. An overview of the standards will be explored and ways that they can be implemented will be discussed. For the NASP Pre-Conference we will begin implementing CAS practice by reviewing the Mission Standard (bring your mission statement) and the Diversity Standard if time allows (bring any statements on your program and institutions diversity policies).

McNair Achievement Grant Writing Workshop <i>(NOTE: For project members, first 2 registrants are FREE)</i>		\$75.00	\$150.00	\$ _____
What should you know about how readers access your proposal? How are objectives assessed? This session will provide tips so that your proposal receives the score you are seeking. Whether you have never written a proposal before or you are a seasoned writer, this session will provide you with ideas to assist you with making the writing process "easier".

Navigating Ambiguity: Strategies for Program Managers, Service Delivery Personnel and Peer Monitors		\$75.00	\$150.00	\$ _____
This session is for: ▪TRIO program administrators interested in a nuanced understanding of the program authorities as they relate to compliant program management and service delivery, ▪ seasoned NASP peer monitors interested in recertifying their monitoring credentials, ▪ and potential peer monitors interested in the depth of legislative and regulatory understanding required of NASP peer monitors. Covered in this session will be the program legislation, regulations, and the other governing authorities (EDGAR, OMB circulars, grant award notification, and policy statements). Participants will learn how to use these documents to conduct a critical analysis of their own program’s compliance, or that of a peer. Case study analysis will give participants an approach to navigating the ambiguity created by differences in interpretation between the U.S. Department of Education and TRIO grantees.
